

Usability Evaluation of an AI-based Email Phishing Detection System.

This short questionnaire is part of a research study at Manchester Metropolitan University, carried out by Aihaam Zargar and supervised by Safiullah Khan. The questionnaire is about your experience with the prototype interface you just tried out and should take around 5 minutes to complete. Your responses are anonymous, we don't ask for your name, email address or any identifying information. You can stop participating anytime before you submit. Since the data is anonymous, you can't withdraw it after submission because it can't be linked to you. Your responses will be stored securely and used solely for this research.

...

1. I confirm that I have read the participant information sheet and this information, and have had the opportunity to ask questions. *

☐ Yes

2. I understand that my participation is voluntary, that my responses are anonymous, and that I am free to stop at any time before submitting. *

☐ Yes

3. I understand that the anonymous data I provide may be used in the researcher's MSc dissertation and related academic outputs. *

☐ Yes

4. I agree to take part in this study. *

☐ Yes

5. For each statement, please select the response that best reflects your experience, from 1 = Strongly disagree to 5 = Strongly agree. *

	1	2	3	4	5
I think that I would like to use this system frequently.	☐	☐	☐	☐	☐
I found the system unnecessarily complex.	☐	☐	☐	☐	☐
I thought the system was easy to use.	☐	☐	☐	☐	☐
I think that I would need the support of a technical person to be able to use this system.	☐	☐	☐	☐	☐
I found the various functions in this system were well integrated.	☐	☐	☐	☐	☐
I thought there was too much inconsistency in this system.	☐	☐	☐	☐	☐
I would imagine that most people would learn to use this system very quickly.	☐	☐	☐	☐	☐
I found the system very cumbersome to use.	☐	☐	☐	☐	☐
I felt very confident using the system.	☐	☐	☐	☐	☐

6. What did you find as the most helpful thing about the interface?

7. Was anything confusing?
